Experience. Expertise. Excellence. *Everyday!*

# Welcome to BASCO, where you'll always get the *Right* Products!

## Experience. Expertise. Excellence. *Everyday!*

### You Get the *Right* Product

We have over 4,000 containers, container spill response products, container components and container handling/dispensing equipment items online at [www.bascousa.com](http://www.bascousa.com). We've carefully selected each one for its utility, uniqueness, and quality. We have the most comprehensive sourcebook and reference guide in the container industry. Other places have only the things that most people order . . . BASCO has everything that works.

Sometimes, a standard item just doesn't fill the bill. If you don't find what you're looking for in the catalog, just phone us. BASCO has the most extensive product resources in the industry. An oddball container, special pail handling device, or an unusual drum tool... we can handle it.

### You Get the *Right* Customer Service

This is what really counts. With so many product choices, you need more than just an "order

taker"... you want somebody who can help you get it right the first time. When you call BASCO at 1.800.776.3786 you'll immediately talk with knowledgeable, friendly people who really know our products and understand your application. We'll ask questions, we'll help you figure it out. We put our experience and expertise to work for you, so you'll get what you need, the first time, every time. And, we're right by your side both before and after the sale.

The right stuff, right from start to finish, with no hassles, no waiting, no transfer, no guesswork. You won't get that from those "Big Book" guys!

### Order the Way That's *Right* for You

BASCO makes ordering easy and convenient. There is no minimum order on stock items; order just what you need. And be sure to ask about large-quantity pricing that's available on every item.

### You Get the *Right* Result

It is really more than just a lot of words. When you buy from BASCO, you'll get the container product that's exactly right for you, delivered just as you want it, at a fair price.

Now that you know what we're all about, call us and let us prove how good we are. And, thanks for reading!

# Salvage Drums

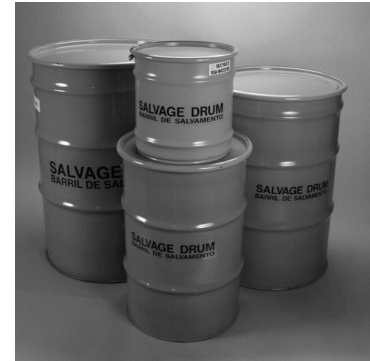

## Steel Salvage Drums

- Handles damaged or leaking containers of hazardous material
- Meets UN/DOT 49 CFR 173.3 (c)

Designed, manufactured and certified to meet UN standards. Supplied with bolt-type ring, bolt, nut and rubber gasketed cover. Safety yellow exterior color. All drums (except 8-gallon) have corrosion-resistant epoxy-phenolic interior lining. 85-gallon (2616U) drum is also available unlined.

**Quad-Pack** includes one each: 8\*- , 30-, 55-, and 85-gallon salvage drum.

\* Unlined

Part No.	Drum Size	Dim. (I.D. x H)	UN Rating	Wt.	Each

## Plastic Salvage Drums

- Constructed of 100% UV-protected Polyethylene
- Handles damaged or leaking containers of hazardous materials
- Twist-off covers

These salvage drums meet Group 1 packaging standards and salvage drum regulations for containing hazardous materials including acids, corrosives and damaged parts in drums.

## UN-Rated Steel Drums

- Meet UN Requirements for hazardous materials
- Protect the integrity and safety of your products

These steel drums are designed, manufactured, and certified to meet UN requirements under DOT 49 CFR. Constructed of first-quality cold-rolled steel. Supplied with rust-inhibitor interior or chemical-resistant epoxy-phenolic lining.

**Standard in-stock color is black.** For other colors, minimums and extra charges apply. Special configuration of bung openings on the cover and side of drums are available, as well as agitator drums at additional cost.

View our full selection of steel drums at [www.bascousa.com](http://www.bascousa.com)

# Drum Handling

## MORSPEED® Automatic Drum Grabber

### High speed, high efficiency drum handling

- Handles any rimmed 30-, 55-, and 85-gallon steel, plastic or fiber drum
- Perfect for palletizing drums
- 1,500 lb. capacity per drum
- Spark resistant models available through special order

Mechanical drum grabber handles one or two drums without the operator leaving his seat. Get drums on or off pallets quickly and easily. Proven grab mechanism has massive steel jaws that grip more securely as the load increases. Works with straight wall drums, even drums with damaged sides. Welded steel construction for ultra-reliability.

**Fork-Mount Models** have drive-in 27" deep fork pockets spaced 16-1/2" apart, accepts forks up to 2-1/2"H x 6-1/2"W.

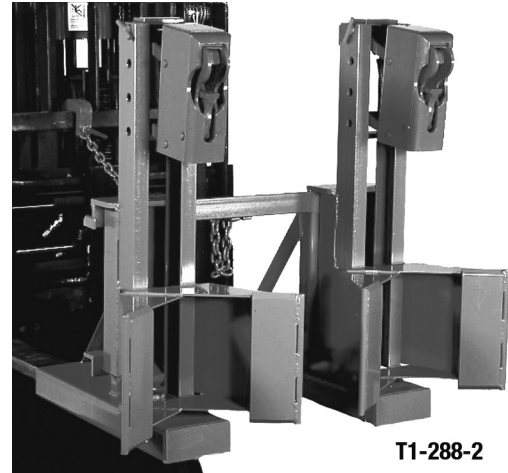

**Carriage Mount Model** installs directly on the fork truck carriage. Ideal for moving drums in crowded areas.

**Belted Back Rest Models** have fabric belt on bottom drum rest that prevents marring and scratching of drums.

**Spark Resistant Models** available.

Call Customer Service at 1.800.776.3786 for details.

**Caution:** Good fork-truck discipline must always be exercised by carrying the load low and avoiding unreasonable surfaces and high speeds. Sudden movement over rough terrain could unweight the drum, allowing the jaws to open, dislodging the drum.

T1-288-2

Part No.	Grabber Type	Mount	Wt.	Each
T1-287	Single drum, 1 head	Carriage	138 lb.	\$1,036.00
T1-288-1	Single drum, 1 head	Forks	267 lb.	\$1,373.60
T1-288-1-2H	Single drum, 2 head	Forks	308 lb.	\$2,176.45
T1-288-2	Double drum, 1 head	Forks	394 lb.	\$2,317.70
T1-288-2-2H	Double drum, 2 head	Forks	488 lb.	\$3,921.05
T1-2523-P	Belt kit option	-	10 lb.	\$189.85

## Econo Gator Grip™ Drum Grabber

### High capacity + high utility + low cost = outstanding value

- Handles open-head or closed-head steel, plastic and fiber drums with a top rim
- Features WESCO® exclusive Gator Grip™ Lock
- Grabs and lifts 30-, 55- and 85-gallon drums
- 1,000 lb. capacity per drum

Extremely durable Gator Grip™ drum grabber allows forklift operators to lift and release drums automatically without leaving their seat. Revolutionary Gator Grip™ Lock offers a true lock on the drum rim, even through rough terrain. Gator Grip™ jaws automatically lock closed to maintain a positive lock while transporting a drum. It will not unlock until the drum is placed on the ground. All welded steel construction. Optional 1,600 lb. capacity models are available. Call Customer Service at 1.800.776.3786 for details.

T1-EGG-F1

Part No.	No. of Drums	Mount	Wt.	Each
T1-EGG-F1	1	Fork mount	176 lb.	\$684.30
T1-EGG-F2	2	Fork mount	258 lb.	\$1,262.80

## DrumRight™ Drum Plug Wrench

### Durable, versatile and economical

- Easily opens most steel and plastic plugs\*
- Tough cast iron construction

Handle is 12" long for extra leverage and offset to protect the hands. Zinc plated to help prevent rust.

\* Does not fit 3/4" plastic VGII plug.

Part No.	Description	Wt.	Each
T1-950Z	Zinc plated cast iron	2 lb.	\$16.30

# Spill Containment

## Drum Containment Basins

*Eliminate dangerous and costly spills and leaks*

- **Protect the environment...and your floors**
- **Provides 110% containment, meets or exceeds EPA requirements**

Contain spills and leaks from 55-gallon steel drums. High-density polyethylene resists most chemicals, won't dent or rust. Ultra-smooth surface allows thorough cleaning.

**One-Drum Basin** is ideal for locating drums at the point-of-use. Molded legs allow forklift access.

**Two-Drum Basin** holds drums with compatible non-reactive contents. Molded legs allow forklift access.

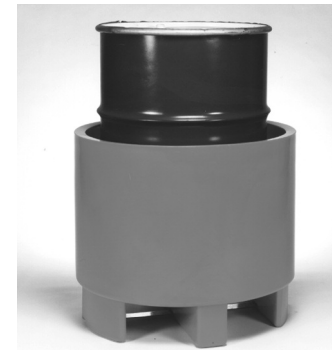

**Four-Drum Basin** is designed to fit on a standard pallet for forklift access. Palletized basins with drums are stackable.

**Basin Covers** protect drums stored outside. Deep skirt won't dislocate or blow away. Molded black polyethylene.

**Basin Dollies** add mobility to your containment systems. 2-1/2" high sidewall. Double-race ball bearing casters with polyolefin wheels provide total maneuverability.

**OD** = Outside Diameter

Part No.	Description	Sump Capacity	Load Capacity	Dim. (L x W x H)	Dim. OD x H	Wt.	Each

**T1-SP55**

## Plug N' Dike Seals Even Free-Flowing Leaks

- **Sticks to dirty, rusty or greasy surfaces**
- **Non-toxic**

Unique polymer and mineral-based product instantly seals leaks. Plug N' Dike is a non-toxic material that immediately forms a tight temporary seal against fuels and chemicals. Applies directly over the leak without surface preparation. Plugs up to 2' - 3' pressure head. Not recommended for use with acids, caustics or oxidizers.

**Premix** is ready to use right from the tub. Just apply a handful right to the leak.

**Dry Granular** stores indefinitely. Forms temporary berms and dikes. Perfect for leak containment. Can also be kneaded with water to make a plug.

**Plug N' Dike Puck** is a handy 10 oz. premixed plug. Just perfect for spill response kits.

**Plug Rug™** is a polypropylene mat with a layer of Plug N' Dike on the bottom. Just lay it over drains, storm sewers or pipe runs to prevent spills from entering. Great for plugging large holes or rips in containers.

**Drain Cover** is reusable polyethylene cover with Plug N' Dike edge-sealing strips. Edge-sealing strips are easily replaceable.

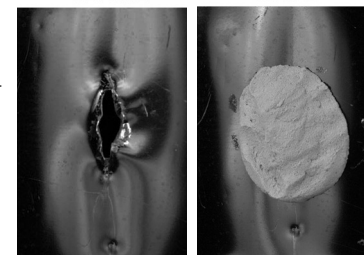

**T1-PR88**

# Spill Containment

## ENPAC® In-Line Spill Pallets Save Floor Space

- Helps you comply with EPA 40 CFR 264.175
- Up to 3,000 lb. UDL load capacity

No room along that aisle for a four-drum pallet? These 2- and 4-drum units are just what you need. 100% polyethylene with UV inhibitors, resists most chemicals and environments. Internal polyethylene frame adds strength to sidewalls, prevents deformation under heavy load. Removable grates over deck area allow easy access to sump for clean-out. Two-way forklift access. Optional drain opening permits complete recovery of spilled liquid.

**Pullover Cover** protects drums on pallets stored outside, keeps rain and other contaminants out of the containment sump. Fitted, heavy gauge vinyl cover resists UV and temperature extremes. Elastic hem fits securely; won't blow off and has a convenient MSDS pouch which allows for easy access of hazmat information.

UDL = Uniformly Distributed Load

T1-SP5102D

Part No.	Description	Drain Plug	Sump Capacity	UDL Capacity	Dim. (L x W x H)	Wt.	Each

## ENPAC® Poly-Slim-Line™ 6000

- Ultra-low deck height makes drums easy to reach
- Super-strong, holds up to 6,000 lb.
- 66 gallon sump capacity

These 4-drum containment pallets help you comply with EPA 40 CFR 264.175. 100% polyethylene with UV inhibitors, resists most chemicals and environments. Removable grates over the 48" x 48" deck area allow easy access to sump for clean-out. Four-way forklift entry. Optional 2" NPT drain opening permits quick and thorough recovery of spilled liquid. Internal polyethylene frame adds strength to sidewalls and prevents deformation under heavy loads.

**Pullover Cover** protects drums on pallets stored outside, keeps rain and other contaminants out of the containment sump. Fitted, heavy gauge vinyl cover resists UV and temperature extremes. Fits pallet securely; won't blow off.

UDL = Uniformly Distributed Load

T1-SC5061	Pullover cover	-	-	-	-	6 lb.	\$190.00

## Ultra® IBC Spill Pallet Plus®

- 360 gallon sump capacity meets EPA Container Storage Regulations
- All polyethylene construction offers excellent chemical resistance
- Forkliftable
- 8,500 lb. UDL capacity

The low profile **Ultra IBC SpillPallet Plus®** has an overall height of just 28" which allows for safe and convenient IBC tank handling and dispensing. The large 52" x 52" deck allows for convenient placement of IBC tanks.

The **SP1158** has a drain plug that allows complete recovery of spilled liquid.

UDL = Uniformly Distributed Load

# Spill Containment

## Ultra-Pop Up Pools® Contain Spills and Leaks Quickly

- Limit environmental damage from leaking tanks and containers
- Folds compactly for storage...expands instantly when deployed
- Puncture- and tear-resistant polyethylene

Ultra®-Pop Up Pools are ideal for containing leaking diesel fuel or hydraulic fluids, temporarily containing leaking drums or pails, collecting used sorbents or as a decontamination pool.

**Sprung Steel Pool** is ready to use with no assembly needed. 10 mil polyethylene liner on sprung steel frame expands instantly when removed from its handy storage bag.

**Economy Pool** is stored in a compact roll. Both pool types have a closed-cell foam ring that rises with liquid level to raise walls. May be decontaminated after use.

**Cab-Mount Container** saves space inside the cab. Stores economy pool outside the truck cab (not for sprung steel pools). All-polyethylene container is weather-resistant and lockable. Unit also available in 150 gal. capacity.

T1-POP8150

## Prowler™ Pool

- Compact, lightweight and portable
- Excellent for immediate response
- Up to 150 gallon sump capacity
- Complies with EPA 40 CFR 264.175

Prowler™ Pop-Up Pools offer excellent chemical resistance to the widest range of chemicals, acids, fuels and other hazardous materials. Also resistant to cold temperatures to -65° F, abrasion, punctures and UV rays. The Prowler™ pool is half the weight of comparably sized PVC pools while offering twice the strength.

T1-PP5920

Part No.	Sump Capacity	Dimension	Wt.	Each
T1-PP5920	20 gal.	28" base x 13"H x 18" top	2 lb.	\$73.95

## Semi-Truck Spill Kit

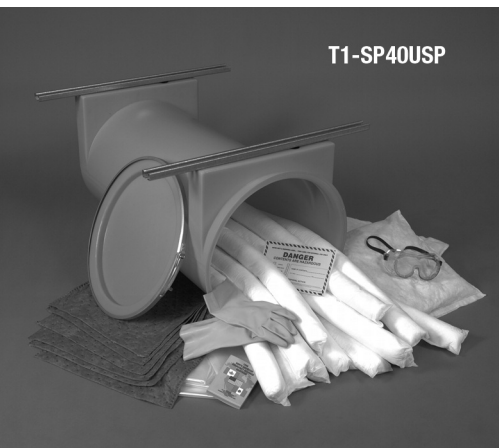

- Saves costly clean-up fees and penalties
- Contains everything needed for a spill response
- For aggressive and non-aggressive liquids

This complete mobile spill response kit will handle up to a 40 gallon spill.

**UniSorb™** treated polypropylene sorbents work with acids, alkalis, solvents, oils, fuels... no guesswork about what to use! 100% treated polypropylene sorbent soaks up 10 to 20 times its weight, incinerates completely. High density polyethylene storage container is waterproof, has quick access cover. Mounts easily to trailer undercarriage with included hardware.

**Storage Container** is also available separately for filling with your own supplies.

**Contains:** (1) polyethylene storage container, (19) 3" x 48" **UniSorb™** socks, (4) 18" x 18" **UniSorb™** pillows, (50) 17" x 19" **UniSorb™** pads, (5) polyethylene disposal bags with wire ties and labels, (1) **Tyvek®** coverall suit (XL), (1) pair nitrile gloves, (1) safety goggles, (1) Emergency Response guidebook.

# Spill Kits

## Rubbermaid® Mobile Barrier

- Easy-to-use, highly visible, for use in many situations
- Extends to 13' when fully opened
- Lightweight and compact
- ANSI compliant color and graphics

Flexible panels allow straight, curved and circular configurations. Extends to 13' when fully opened. Features locking straps to keep barrier closed.

Compact 2' x 13" footprint when closed. For indoor use; shipped assembled.

Part No.	Description	Dim. Open (L x W x H)	Wt.	Each
T1-9S11	Mobile Barrier, Yellow	13' x 1" x 40"	37 lb.	\$399.90

## Battery Acid Spill Kits

*Clean up spills while keeping your employees safe*

- Absorbs up to 20 gallons
- Sorbents, drum, gloves and goggles included
- Convenient to store and easy to access

Battery spill kit includes a variety of sorbents to handle a battery acid spill. All sorbents are 100% polypropylene, in yellow for universal caution color. Pre-packed in a 20-Gallon Overpack, UN rated 1H2/X75/S. UN containers rated X have the highest safety rating available. Self contained Kit with overpack drum stores sorbent products for easy access as needed for spill control; saves time when quick response is necessary and safety is important. Overpack is rust and corrosion free, 100% polyethylene is durable to withstand rough handling. Twist-on, double-wall lid and closed-cell gasket provides sealed and secure closure to protect sorbents from moisture, dirt and damage.

**Contents:** (3) 3" x 4' socks, (40) 15" x 19" pads, (3) 18" x 18" pillows, (1) pair neoprene gloves, (1) safety goggles, (2) 2 lb. acid neutralizing sorbent shaker cartons, (2) yellow disposal bags & ties. Each pad absorbs .29 gal, socks absorb 1 gallon each, pillows absorb 2.9 gallon each and acid neutralizing powder absorbs .2 gallon each.

Part No.	Description	Wt.	Each
T1-BATTKIT	Battery Acid Spill Kit	27 lb.	\$169.80
T1-RBATTKIT	Battery spill kit without drum	20 lb.	\$73.25

## 5-Gallon Spill Response Kits

- Ideal for shipping/receiving areas or work stations
- Absorbs more than 5 gallons
- Re-sealable UN rated twist-top pail for easy access
- Easy to carry, easy to store

**Contents:** (1) 5-gallon pail with cover UN rated (1H2/Y27/S), (4) 3" x 48" socks, (6) 15" x 19" pads, (1) disposal bag and wire tie, (1) warning label, (1) Haz-mat Response guidebook and Spill Kit instructions. In addition, the **UniSorb Plus™** also contains (1) pair of nitrile chemical gloves and (1) safety goggle. The **CleanSorb™** kit contains (7) 15" x 19" pads.

**Refill Kits Include:** Socks, pads, disposal bag and wire tie, (1) warning label and spill kit instructions.

## All-Purpose Spill Tray

- Safely store leaking containers, batteries, equipment
- 100% UV-resistant high-density polyethylene

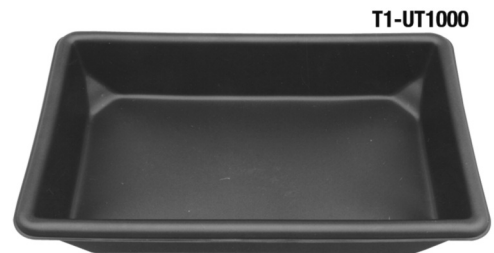

Multi-use tray contains drips and spills from leaking containers. Also works well as a temporary drum or pail liquid transfer station.

**Utility Tray** has 12" deep sump with extra large 75 gallon capacity. Heavy 3/16" thick sidewalls with rounded 2" lip provide more strength; smooth bottom won't crush under heavy load.

**Drum Spill Basin** has polyethylene structural support insert. Accepts two 55-gallon drums; keeps drums 6" above bottom of sump. Supports 6,000 lb. static load.

**Battery Spill Basin** has 2 1/4" high polyethylene grate to support up to 5,000 lb. loads.

Part No.	Description	Sump Capacity	Grate Dim. (L x W x H)	Dim. (L x W x H)	Wt.	Each
T1-UT1000	Utility Tray	75 gal.	—	58" x 34 1/2" x 12"	20 lb.	\$135.75

## CornCob Socks are Economical

*Surround your spill fast and easy!*

- For oils, coolants, solvents and water
- Contain and soak up leaks or spills
- CornCob socks tackle tough jobs and provide an affordable alternative to messy clay
- One sock does it all

These economical and highly efficient Socks can tackle even the toughest jobs. With a tough polypropylene skin and finely ground corn cob filler, each Sock absorbs 1/2 gallon of oil, coolants, solvents and water-based liquids. Nearly twice as much as loose clay, but without the dust or the mess to clean up afterward. Plus they can be incinerated. Unlike clay, you won't need a shovel for this cleanup!

Part No.	Description	Size	Absorption Per Sock	Each
T1-CCS040	CornCob Socks	3" x 3.5'	.5 gal.	\$1.50

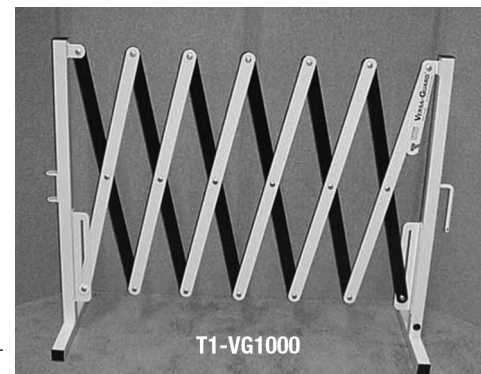

## Versa-Guard® Expanding Portable Barricade

*Conforms to OSHA standards*

- Provides highly visible warning to reduce accidents
- Interconnect 2 or more units for wider expanse
- Fast deployment and set-up

The Versa-Guard® barricade is a must have for manufacturing facilities, municipalities, or for anyone who needs to cordon off an area to redirect foot and vehicle traffic, due to a hazard or during maintenance procedures. Expandable gates are made of aluminum with a steel frame and have a high gloss powder-coated finish.

Part No.	Ht.	Expands	Feet Type	Wt.	Each

T1-VG1000C	39"	17"-11' 4"	Casters with wheel locks	31 lb.	\$317.30

# Absorbents

## EcoTech™ Sorbent Pads and Rolls

**Strong and Absorbent for a Cleaner, Greener Facility!**

- Exclusive cellulose blend is an eco-friendly alternative to polypropylene mats and rolls
- Universal application for oils, coolants, solvents and water
- Fire retardant for added safety; flame-tested in accordance with ASTM Standard E84-08
- Can be incinerated after use to reduce waste or for fuel blending
- Rolls perforated every 19" horizontally, Pads perforated 7.5" vertically, use only what you need

Soak up machine leaks and overspray with this eco-friendly, cellulose-based mat. EcoTech™ pads and rolls are strong and absorbent to keep your workplace clean, and they're made from 75% recycled newsprint to help keep your facility green.

Part No.	Description	Absorption per Pkg.	Pkg. Qty.	Wt.	Each
T1-ET100HW	15"x19" Heavy Weight pads	30.2 gal.	100	14 lb.	\$72.05
T1-ET100LW	15"x19" Light Weight pads	21.2 gal.	100	10 lb.	\$56.60

## Absorbent Pillows Soak Up Big Spills

- Ideal for larger spills
- High efficiency sizes

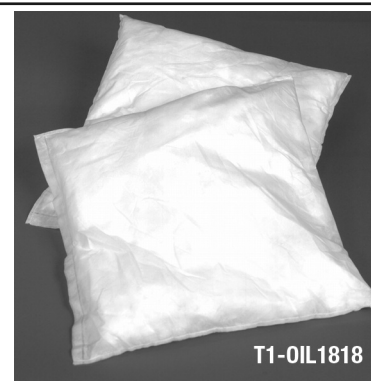

Use quick-wicking pillows alone to catch leaks and drips, or use them together with socks to soak up contained spills. Dust-free pillows absorb throughout...no waste.

**UniSorb™** = Acids, alkalis, solvents, oil and unknown liquids

**OilSorb™** = Oil only, not water

**CleanSorb™** = Oil, coolants, solvents and water

Part No.	Type	Absorption Per Pillow	Wt.	Each

## Versatile Absorbent Pads Tackle Every Kind of Spill

- Perfect for under machinery and workstations
- Ideal for lining shelves

Flexible, easy-to-apply pads can be used nearly everywhere. Can be easily cut to fit smaller places. Textured surface traps liquid and helps prevent runoff. Pads are 15" x 19"

**UniSorb™** = Acids, alkalis, solvents, oil and unknown liquids

**OilSorb™** = Oil only, not water

**CleanSorb™** = Oil, coolants, solvents and water

Part No.	Type	Absorption Per Pad	Wt.	Each

## Ultra® Portable Secondary Containment Berms

- Perfect for drums, storage tanks, even tanker trucks
- No inflation or set-up needed; just unfold, springwalls open
- Complies with EPA 40 CFR 263.175 requirements

Patented "living hinge" allows sidewalls to collapse in either direction as you move in or out, they spring back automatically to their upright position. Completely open interior; no frames or straps. Perfect for securing vehicles or skid-mounted tanks in remote locations. Smaller sizes are ideal for on-site containment of drums. Made of tough, chemical-resistant 30 oz. XR-5® ethylene-copolymer coated fabric. Seamless one-piece construction with 12" sidewall.

Five sizes to choose from at [www.bascousa.com](http://www.bascousa.com)

# Safety

## Justrite® Oily Waste Cans

- For solvent cloths, oil and paint rags
- UL Listed

Justrite® OSHA Compliant Oil Waste Cans dispose of rags soaked with solvents, thinners, linseed oil, combustible adhesives and other flammable liquids that present risk of fire that can start due to spontaneous combustion, sparks or careless use of smoking material if not disposed of properly. All feature galvanized steel body construction with a durable powder paint finish. The lid opens no more than 60° and stays closed when not in use. Round shape and ventilated bottom encourage air circulation to disperse heat and prevent spontaneous combustion. Also available in yellow for additional cost.

## Job-Matched Plunger Cans

- Quickly and easily moisten cloths or swabs
- No mess or wasted solvents

A simple push on the spring-loaded plunger dispenses just the right amount of solvent into the pan. Surplus solvent drains safely back into the can. The perforated pan screen also serves as a flame arrester. Top rim of plunger pan has molded rim for smooth, trouble-free moistening.

**Justrite® Premium Coated Steel Cans** are 24-gauge steel with durable powder-coat finish. Brass plunger assembly.

**Justrite® Polyethylene Cans** are corrosion resistant high-density polyethylene with brass plunger assembly.

Dasher Plate

T1-10208

## Justrite® Bench Cans

- Ideal for small parts cleaning or sponging

Speed up cleaning of small parts at the job. Place parts on spring-loaded perforated dasher plate and press down to submerge and clean. When released, the dasher returns to its upper position above the liquid level, allowing solvent to drain back into can. 24-gauge premium coated steel can has plated dasher which also serves as a flame arrester. Hinged cover minimizes vapor loss. Side carrying handles (except 1 quart) allow easy transport.

**Parts Basket** holds a larger quantity of small parts for more efficient cleaning (not recommended for 1 qt can).

## Justrite® Flammable Liquid Storage Cabinets

- Includes Sure-Grip® EX Handle
- Tri-lingual warning label, English, Spanish, French
- All models meet NFPA Code 30 and OSHA standards

All welded 18-gauge premium coated steel cabinets provide extra rigid support for cans and pails. Doors have three-point self-latching mechanism and keylock. 2" high raised leakproof door sill contains leaks and spills. Double wall thermal barrier. Galvanized steel shelves are ribbed for strength and to catch small spills. Shelves are adjustable in 2-1/4" steps for maximum storage. Welded shelf hangers, no flimsy brackets to lose. Dual vents, with built-in perforated steel fire baffles, relieve internal pressure and permit piping away of flammable vapor where required by the locality. Built-in connection for grounding wire. Galvanized steel floor levelers at each corner. Superior powder-coat paint finish for maximum chemical resistance and durability. Standard color is Safety Yellow.

**Manual Standard Cabinets** have doors that open 180°. Self-latching system provides easy positive door closure.

**Self-Closing Cabinets** automatically close after each use or in the event of a fire. Comply with NFPA Code 30 and OSHA Regulations, and meet the Uniform Fire Code. Fusible metal link holds doors wide open. If temperature rises above 165°F, link melts and releases the doors. Patented fail-safe closing mechanism ensures that doors close tightly from top to bottom. Choice of double swinging door or sliding door models. Standard color is Safety Yellow.

\* OSHA Code 29 CFR 1910.106 states that not more than 60 gallons may be Class I and Class II liquids.

Models have other color choices available in red, gray or white at additional cost.

Call Customer Service at 1.800.776.3786 for details.

- 10 year limited warranty
- Larger ID zone to reduce misuse

**Type I Premium Coated Cans** have a single spring-loaded spout. They're designed for storing and carrying flammable liquids you'll be pouring into containers with wide openings. One-pint to one-gallon models have a fixed handle with trigger release cap for one-hand pouring, larger models feature a swinging handle for easy handling of full cans. All sizes include a free-flow 3-1/2" stainless steel flame arrestor and spring loaded pressure relief vent. Choose **Type I Polyethylene Cans** when dent and chemical resistance are most important.

**Type II Accuflow™ Cans** have two openings: one for filling, and one with a flexible metal hose for accurate, spill-free pouring into small openings. Quick-open fill port with ergonomic lift lever for easy filling. Flame arrestors on both openings prevent flashback. On 5-gallon models, vacuum breaker and pour opening open simultaneously for "chug-free" pouring. 1- and 2-gallon models have self-closing pressure relief caps with built-in vacuum breaker.

**Type II D.O.T. Compliant Safety Transport Cans** have all the features of regular premium coated steel cans, plus heavy-duty roll bars to protect the fill and pour mechanisms from damage, provides extra handles for carrying and pouring. Dual fusible-linked bracket and hand actuated mechanisms protect against product spillage. DOT/UN Rates 1A1/Y1.2/100.

**Funnel/Hose Attachments** attach to Type I cans, feature 3-3/4" inner diameter polyethylene funnel and galvanized hose to help pour accurately into small openings. **Standard color is red for flammables.** Other color options available at additional cost in yellow for diesel, blue for kerosene or green for oil. Call Customer Service at 1.800.776.3786 for details.

# Seals

## High Security Pull-Tight Seals

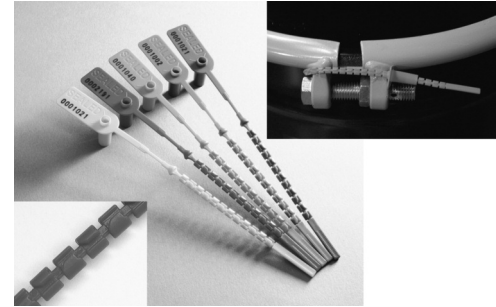

*Try as you might, you'll never successfully tamper with this seal!*

- Secure drum bolt rings, cargo containers, cabinets, totes, etc.
- To secure drum bolt rings use 12" seal only
- Seal strap fits through 1/4" minimum size opening
- UV-Resistant HDPE withstands extreme weather

High Security Pull-Tight Seals have a unique design that provides unparalleled tamper-evident security. Simply insert the strap-end into the locking barrel and pull it tight to seal, leaving the strap-end attached. Manufactured of a tough UV-stable high-density polyethylene, they are virtually impervious to weather extremes. Temperature limit: 230° F. Withstands a 35-40 lb. pull. Standard seals feature a hot stamped seven digit serialized number and the word SEALED. Custom seals are available with seven digit serialized numbering and an additional 2 lines of copy (up to 13 letters/spaces per line).

**Colors:** Red requires a minimum order quantity of 50 seals per bag.  
Blue, Green, Orange and Yellow seals available with minimum orders of 1,000.

Part No.	Overall Length	Functional Length	Color	Wt. Per 1000	Each
T1-SEL8-PTRD	8"	5"	Red	1 lb.	\$0.11
T1-SEL12-PTRD	12"	9"	Red	1 lb.	\$0.13

## Plastic Truck/Cargo Container Seal

- Most popular "All-Use Seal"
- Made of high density co-polymer
- 80 lb. breaking strength
- 7-3/4" L x 13/32" W

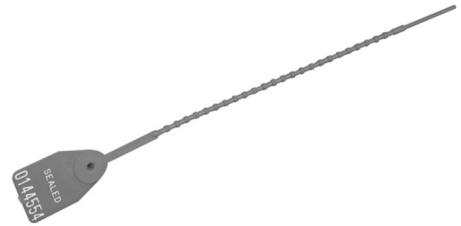

Thread the tip of the seal through the closure and push the tip into the cylindrical end piece. Once secured, the seal must be cut to be removed.

Part No.	Description	Wt. Per 1000	Each
T1-SEL4001	Plastic seal	10 lb.	\$0.24

## Plastic Pull-Tight Seal

- Ideal for drums, valves, totes and general use
- Made of high density polypropylene co-polymer
- 50 lb. breaking strength
- 8" strap length

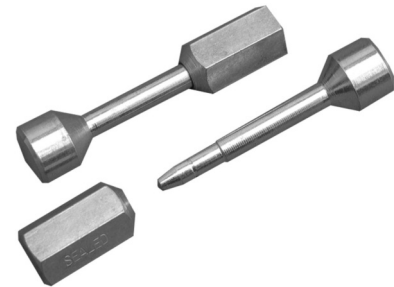

Thread strap through closure and into the locking chamber marked "INSERT HERE" and pull seal through until snug. Seal strap fits through any closure larger than 5/32" in diameter. Overall dimensions: 9-7/8" L x 1-1/8" W.

Part No.	Description	Wt.	Each
T1-SEL9001	Plastic pull-tight seal	.01 lb.	\$0.26

## High Security Steel Bolt Seal

- Keep product safe and loss to a minimum
- 5/16" diameter shaft
- Use on trucks and cargo containers

All steel heavy-duty high security bolt seal is self locking and must be removed with bolt cutters.

Part No.	Description	Wt. Per 1000	Each
T1-SELBLT1	Bolt seal	24 lb.	\$5.60

# Pallet Trucks

## Adjustable Pallet Truck

*One pallet truck that does the work of two*

- Use with different size pallets
- 48" long forks are adjustable in width from 21" to 27"
- 5,500 lb. capacity

Pallet forks adjust by simply loosening and resetting front and rear adjusting bolts. Features a 7" moldon polyurethane steering wheel and 3" moldon polyurethane load wheels and includes a 5-year pump warranty, 7.75" raised height and 3" lowered height.

Part No.	Description	Wt.	Each
T1-272744	Adjustable pallet truck	180 lb.	\$514.00

## Economizer Pallet Truck

*Inexpensive, so you can spot several throughout your plant*

- 4,400 lb. capacity
- Fingertip Control
- Epoxy powder coated finish

Plant productivity increases when you don't make your pallet handling personnel wait for a lift truck. Fork dimension 27" wide x 48" long. Raised Height 7-1/2". Lowered Height 2-7/8". One-year pump warranty. 6-1/2" Polyurethane steering wheel.

Part No.	Description	Wt.	Each
T1-272149	Economizer pallet truck	132 lb.	\$310.35

## CP1 Economy Pallet Trucks

- 5,500 lb. capacity
- 2-year pump warranty
- Polyurethane load and steering wheels
- 6" wide forks

These pallet trucks are ideal for moving heavy loads around the warehouse. Adjusts easily from a 2.9" lowered height to a 7.25" raised height. The 7" polyurethane steering wheels and the 3" polyurethane load wheels make maneuvering easy.

T1-272655

Part No.	Fork (W x L)	Wt.	Each
T1-272655	21" x 36"	168 lb.	\$394.25
T1-272656	21" x 42"	180 lb.	\$394.25
T1-272657	21" x 48"	189 lb.	\$394.25
T1-272658	27" x 36"	178 lb.	\$394.25
T1-272659	27" x 42"	186 lb.	\$394.25
T1-272660	27" x 48"	196 lb.	\$394.25

SEE **Free** Stretch Wrap Dispenser Offer on page 20

# Pallet Trucks & D.O.T. Labels

## Scale Pallet Truck

*Why perform two tasks? This truck transports goods AND weighs them!*

- 4,400 lb. capacity
- UL approved scale
- 205 degree turning radius
- Self-contained battery charger
- 2-Year pump warranty

Weighing accuracy at full capacity (4,400 lbs.) ± 2.2 lbs. LCD display scale. Metro-Toledo Hawk scale/sensor. UL Approved scale operates on rechargeable battery. May be plugged into AC and used while recharging. Three position hand control. 7" wide forks 7" moldon polyurethane steering wheels. 3" moldon polyurethane load wheels.

**Standard Scale Pallet Truck** fork dimensions: 27.5" W x 47.5" L

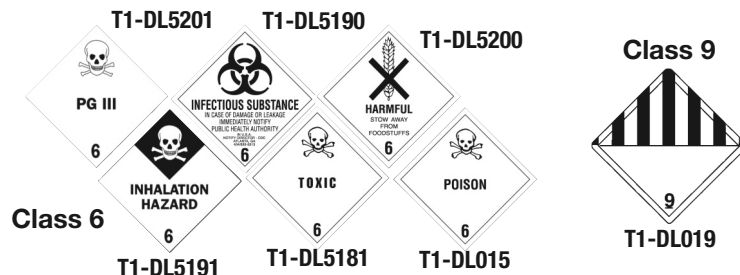

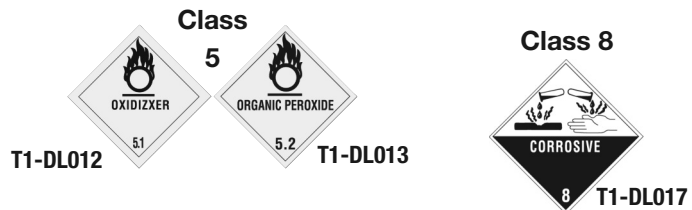

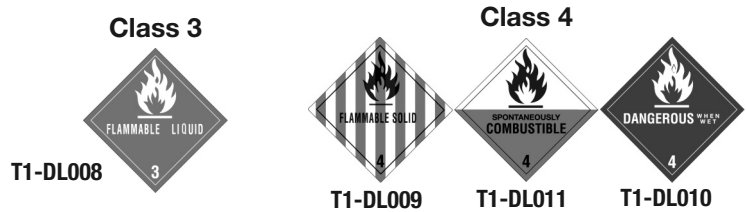

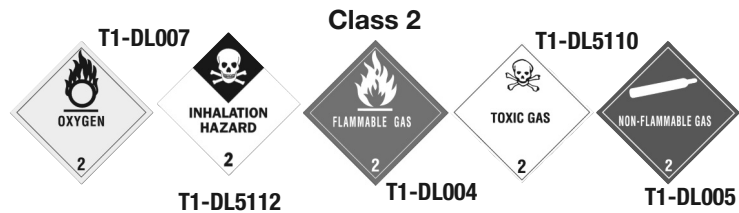

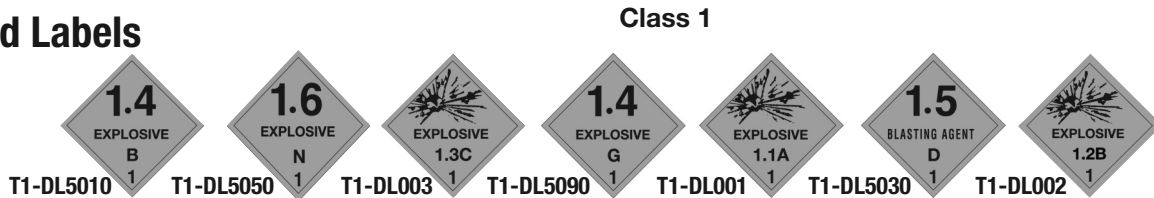

**Narrow Scale Pallet Truck** fork dimensions: 22" W x 47.5" L

Part No.	Description	Wt.	Each
T1-272936	Standard scale pallet truck	308 lb.	\$1,853.25
T1-272938	Narrow scale pallet truck	300 lb.	\$1,853.25

## E•A•R Classic® EarPlugs

- One of the most popular earplugs in the world
- PVC foam construction
- NRR (noise reduction rating) 29 dB
- ANSI S3.19-1974/CSA Z94.2

E•A•R Classic Earplugs® were the first foam earplugs ever. Today, they are still the leading seller worldwide because of other outstanding advantages, including: Excellent hearing protection – NRR 29dB; easy to use cylindrical shape; soft, low pressure foam for all-day comfort; non-allergenic; moisture resistant; non-flammable and bright yellow color for high visibility. Each pair of the uncorded style is packaged in a pillow pack. Pairs of the corded style are packaged in poly bags. Each box contains 200 pair.

T1-EP310-1001

## DURA-INK® #80 Valve-Actuated Marker

*This marker keeps going and going and going...*

- Large ink supply for increased marking mileage
- Smear and water resistant, fast drying ink
- Long wearing medium bullet tip
- Rugged metal barrel

One of the best industrial ink markers on the market today, the DURA-INK® #80 has a very large liquid ink supply that seems to last forever. Its value-actuated hard felt medium bullet tip wears well under the most grueling conditions and releases ink on demand for smooth continuous use. Available in black only and sold in case quantity of 12.

Part No.	Description	Case Wt.	Case Price
T1-M96923	DURA-INK® #80 Marker	3 lb.	\$55.25

## PRO-LINE HP® High Performance Paint Markers

*The BEST permanent marker for wet or oily surface*

- Marking temperature range -50° F to 150° F
- Permanent paint, dries quickly, long wearing, fade resistant
- 3 mm medium point bullet tip nib

PRO-LINE HP® markers offer unsurpassed writing capability on oily, soapy and wet surfaces. Low in halogenated compounds and sulfur for use in corrosive sensitive applications. PRO-LINE HP® markers are the safest and most versatile paint marker on the market. They are xylene-free and contain no California Proposition 65, EPA HAPS or SARA 313 listed chemicals. Other colors are available upon request. Sold in case quantity of 12.

## TRADES MARKER® Industrial Marker

*As versatile as a china marker...as convenient as a ballpoint pen!*

- More convenient than standard china markers
- Retractable feature protects tip from breaking
- Push button holder advances marking stick as needed

Marks on plastic, glass, metal, wood, cardboard and paper. Needs no sharpening and eliminates the hassles experienced with paper wrapped china markers. Includes five color refills: red, white, black, yellow, orange. Sold in case quantity of 12.

Part No.	Description	Case Wt.	Case Price
T1-M96000	TRADES MARKER®	3 lb.	\$11.50

## Heavy Duty Metal Knife

- Heavy Duty Metal Knife
- Scoring Blade

Part No.	Wt.	Each
T1-EP-190	1 lb.	\$8.25

## Heavy Duty Break Away Blade

- Heavy Duty break - away blade
- Durable plastic/steel sheath

Part No.	Wt.	Each
T1-EP-180	1 lb.	\$2.80

## Reusable Drum Leak Patch

- Large patch area
- Seals leaks fast on any 55-gallon drum

Easy-to-use polyurethane patch fits steel, plastic, and fiber drums. Soft but tough polyurethane patch conforms to any surface. Patch area is 7" x 5", large enough to cover most leaks. Resists oils and most chemicals. Reuse again and again; cleans up easily with soap and water. Strong nylon belt with ratchet-type tightening buckle goes on fast, stays tight.

Part No.	Description	Wt.	Each
T1-BP555	Drum patch	10 lb.	\$105.05

# Facility Maintenance

## Leather Palm Work Gloves

- Durable leather palm for unmatched durability
- 2-1/2" rubberized cuff
- Sold in packs of 12 pair

Grey leather work gloves feature shoulder split cowhide for unmatched durability. Striped cotton back with elastic band provides a comfortable fit every time. Rubberized safety cuff gives added protection by keeping debris out of the glove. **Large size only.**

Part No.	Wt.	12 Each
T1-GL84403-L	6 lb./dz.	\$41.90

## Double Leather Palm Work Gloves

- Durable leather palm for unmatched durability
- 3" rubberized cuff
- Sold in packs of 12 pair

Double palm with jointed inner palm for increased glove life and durability. Constructed of grade shoulder split cowhide and offers quality at an affordable price. Cotton lined palm for extra comfort. Leather knuckle strap at finger tips for extra protection. Rubberized safety cuff. **Large size only.**

Part No.	Wt.	12 Each
T1-GL84423-L	7 lb./dz.	\$38.40

## Perfect Fit® Tuff-Knit KV Extra™ Gloves

- Double-sided blue block coating for gripping power
- Made of Kevlar for superior strength and durability
- Ambidextrous design with reinforced thumb crotch

A standard weight work glove made from Kevlar for superior strength and durability. Excellent dexterity and abrasion resistance. Double-sided PVC dot coating for an incredible grip, in addition to increasing the glove's longevity.

Part No.	Description	Wt.	Each	12 Each
T1-GL18RMN	Men's	.20 lb.	\$7.55	\$6.85
T1-GL18RLD	Women's	.20 lb.	\$6.60	\$6.00

## Traffic Cones

**Durable and weather resistant all vinyl construction**

- Fade resistant brilliant fluorescent color coating
- Engineered to meet MUTCD specifications

Alert drivers, pedestrians and employees to hazards, obstructions and restricted areas with these nestable cones. Cones have a top coat of high visibility and highly pigmented PVC with UV stabilizers for fade resistance.

MUTCD = Manual on Uniform Traffic Control Devices

Part No.	Description	Case Qty.	Case Wt.	Case Price
T1-TC1850	Cone, 18" H x 11.5" square base	20	70 lb.	\$164.35
T1-TC2825-5	Cone, 28" H x 13" square base	10	55 lb.	\$117.15

## Plastic Chain Barrier

**Position this barrier to suit your needs**

- Isolate an area quickly with this portable system
- Polyethylene base, fiberglass pole, polyethylene chain

Chain barrier includes two upright fiberglass poles, two polyethylene bases, and 10 feet of #8 style polyethylene chain. 42-1/2" overall height from pole top to bottom of base.

Part No.	Description	Wt.	Each
T1-PCB425	Plastic chain barrier	6 lb.	\$146.15

# Facility Maintenance

## EZ-Back Pre-Stretched Hand Film & Dispenser

**"Less than half the weight of conventional stretch film and dispensers!"**

- Film edges are hemmed to prevent damage if roll is dropped
- Pre-Stretched film minimizes effort of application
- Further stretching during application increases film strength and maximizes load retention
- Use EZ-Back Film with the EZ-Back Dispenser to create the ultimate lightweight system

Part No.	Roll Width	Roll Length	Rolls per Case	Gauge	Case Wt.	Each
T1-SW50161	15"	1500'	4	38	14 lb.	\$32.85
T1-SW50157	17"	1500'	4	38	16 lb.	\$37.00
T1-EZ123	Dispenser fits 15" - 18" wrap				1.3 lb.	\$112.50

\* Free dispenser EZ123 with purchase of one pallet (48 cases) of pre-stretched film listed above

## Intermediate Bulk Containers

**"Save space and money by using IBC tanks for storage and shipping!"**

- Rigid, welded galvanized tubular steel cage
- 275- and 330-gallon fill capacity
- UN Rating for Packing Group II and III, UN 31HA1/Y1.9
- ISO container suitable dimensions. Fit 56 units on a 48-foot trailer
- Available with composite (SM13) or plastic pallet (SM15)

Gain the greatest possible volume while using a minimum of space with this easy to fill, easy to stack and easy to load intermediate bulk container. It's the best solution for transporting and storing the widest range of chemicals and food grade products. Food grade products require a new inner tank with new valve, caps and gaskets.

T1-SM13275

Part No.	Description	Wt.	Each
T1-SM13275	275 gal. w/composite pallet	133 lb.	\$241.60
T1-SM15275	275 gal. w/poly pallet	133 lb.	\$285.40
T1-SM13330	330 gal. w/composite pallet	160 lb.	\$256.85

## BASCO EZI-action® Drum and Pail Pumps

**Pump almost any non-flammable liquid twice as fast with half the effort**

- Delivers on the up AND down stroke
- Made 100% of FDA-compliant polypropylene and polyethylene

Don't struggle with a conventional "stick" pump! This patented zero-friction pump handles acids, alkalis, oils, soaps, syrups, juices, most non-flammable liquids up to 8,000 cps viscosity. Ruggedly constructed pump has the only 24 month warranty in the industry.

**Optional Quart Safety Measure** enhances safety with closed delivery dispensing. Marked in liters and ounces. Includes cap-on-strap and self-adhesive I.D. label.

T1-P20055 shown with T1-P32SM

Part No.	Description	Adapter Fits	Wt.	Each
T1-P255	Fits 5-gallon pail	70 mm & FLEXSPOUT®	2 lb.	\$33.45
T1-P3015	Fits 15- and 30-gallon drum	2" NPS & 2" Buttress	2.5 lb.	\$44.20
T1-P20055	Fits 55-gallon drum	2" NPS & 2" Buttress	3 lb.	\$68.75
T1-P32SM	Quart safety measure	Spout Adapter	1 lb.	\$7.00
